Instructions – For tips and to see exactly how I created these labels, take a look at the video I created at <https://www.scrappingstampingandstuff.com/stampin-up-catalog-tabs/>

1. Prints pages 2-3 onto cardstock.
2. Lay one of the pages horizontally on your scoring board. Score down the center of each label.
3. Turn page vertically, and cut into 3 strips between the columns of labels.
4. Use the postage stamp punch to punch each label.
5. Fold each label in half and use your choice of adhesive (Seal + works great!) to attach to the correct page.
6. Use blank labels to create your own additional labels if desired.
